

MICHAEL ANDERSON

ASSISTANT PROFESSOR OF PSYCHOLOGY

PROFILE

Results-driven Judgment and Decision Researcher with a strong background in cognitive psychology and over 6 years of experience in the academic sector. My research focuses on the cognitive processes involved in decision-making and how they can be influenced by various external factors. I have successfully designed and executed experimental studies that provide insights into consumer behavior, risk assessment, and choice architecture.

EXPERIENCE

ASSISTANT PROFESSOR OF PSYCHOLOGY

State University

2016 - Present

- Taught undergraduate courses in cognitive psychology and decision-making.
- Conducted research on cognitive biases influencing financial decisions.
- Supervised student research projects, fostering critical thinking skills.
