MICHAEL
ANDERSON

Sports Data Analyst Intern

- San Francisco, CA
- (555) 234-5678
- michael.anderson@email.com

Enthusiastic Junior Data Analyst with a keen interest in sports analytics and a strong foundation in data-driven decision-making. My background in statistics and data analysis has equipped me with the skills necessary to analyze performance metrics and provide insights that enhance athletic performance and team strategies. I am proficient in using R and Python for statistical analysis, as well as Excel for data visualization.

WORK EXPERIENCE

Sports Data Analyst Intern | Athlete Performance Insights   Jan 2022 – Present

- Assisted in collecting and analyzing athlete performance data
- Utilized R for statistical analysis and performance modeling
- Created visual reports to present insights to coaching staff
- Collaborated with trainers to assess training impacts on performance
- Supported the development of performance dashboards for tracking metrics
- Documented data analysis processes and findings for future reference

Junior Data Analyst | Sports Analytics Co.   Jul 2019 – Dec 2021

- Conducted game analysis to identify performance trends
- Developed statistical models to predict game outcomes
- Presented findings to coaching staff for strategy adjustments
- Utilized SQL to extract player data for analysis
- Automated data reporting processes to improve efficiency
- Participated in strategy sessions to inform team decisions

SKILLS

R   Python   SQL   Sports Analytics   Statistical Analysis   Data Visualization
