SUMMARY

Proficient Land GIS Administrator with extensive experience in managing geospatial data and systems to facilitate precise mapping and analysis. Demonstrated expertise in integrating Geographic Information Systems (GIS) with land management practices, enhancing decision-making processes for urban planning and resource management. Adept at utilizing advanced GIS software and tools to create detailed land use maps, conduct spatial analysis, and support environmental assessments.

WORK EXPERIENCE

Senior GIS Analyst GeoSolutions Inc.   *Jan 2023 - Present*

- Designed and implemented GIS databases for land use analysis.
- Conducted spatial analyses to support urban planning initiatives.
- Collaborated with environmental scientists to assess land impact.
- Developed automated mapping processes to enhance data accuracy.
- Trained staff on advanced GIS software applications.
- Presented findings to stakeholders to facilitate informed decision-making.

GIS Technician LandMark Technologies   *Jan 2020 - Dec 2022*

- Assisted in the creation of detailed land surveys using GIS tools.
- Performed data entry and management for geographic datasets.
- Supported field data collection efforts with mobile GIS applications.
- Ensured data integrity through rigorous quality control measures.
- Generated maps for public presentations and community engagement.
- Participated in the development of GIS training materials.

EDUCATION

Master of Science in Geographic Information Systems, University of California, Berkeley, 2017   *Sep 2019 - Oct 2020*

ADDITIONAL INFORMATION

- **Technical Skills:** GIS Analysis, Data Management, Spatial Analysis, Urban Planning, Environmental Assessment, Project Management
- **Awards/Activities:** Increased mapping efficiency by 30% through process automation.
- **Awards/Activities:** Received the 'Excellence in GIS' award for innovative project contributions.
- **Awards/Activities:** Successfully led a team in a multi-million dollar land development project.
- **Languages:** English, Spanish, French
