

# MICHAEL ANDERSON

## GIS PROJECT MANAGER

### PROFILE

Strategic Land GIS Administrator with a robust background in land resource management and geospatial technologies. Expertise in leveraging GIS tools to analyze land use patterns and optimize land development strategies. Proven ability to synthesize complex datasets into actionable insights, facilitating informed decision-making for governmental and private sector projects. Strong experience in project management, overseeing GIS initiatives from conception through execution, ensuring on-time and within-budget delivery.

### EXPERIENCE

#### GIS PROJECT MANAGER

##### Urban Planning Corp.

2016 - Present

- Led GIS projects focused on urban land development and zoning.
- Coordinated with local governments to align GIS initiatives with policies.
- Managed budgets and timelines for multiple concurrent projects.
- Developed comprehensive GIS applications for land analysis.
- Facilitated workshops to educate stakeholders on GIS benefits.
- Optimized data workflows to enhance project delivery speed.

#### GIS ANALYST

##### EcoMapping Solutions

2014 - 2016

- Conducted land use impact assessments using GIS modeling.
- Created detailed cartographic products for environmental reports.
- Collaborated with environmental regulators to ensure compliance.
- Utilized remote sensing data to analyze land cover changes.
- Participated in community outreach programs to present findings.
- Streamlined data collection processes through GIS integration.
