SKILLS

- Transportation Planning
- Land Use Policy
- Data Analysis
- GIS
- Stakeholder Engagement
- Urban Development

EDUCATION

MASTER OF URBAN AND REGIONAL PLANNING, UNIVERSITY OF NORTH CAROLINA; BACHELOR OF SCIENCE IN CIVIL ENGINEERING, GEORGIA INSTITUTE OF TECHNOLOGY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Successfully advocated for a new public transit line that increased ridership by 20% in targeted areas.
- Received the 'Transportation Excellence Award' for innovative policy solutions in urban planning.
- Presented at regional conferences, sharing insights on transportation and land use integration.

Michael Anderson
TRANSPORTATION POLICY ANALYST

Dedicated Land Policy Analyst with a focus on transportation and infrastructure planning. Proven ability to analyze land use patterns in relation to transportation systems and their impacts on urban mobility. Extensive experience in developing policies that enhance connectivity while promoting sustainable land use practices. Recognized for strong analytical skills and the capacity to translate complex data into actionable strategies for urban planners and policymakers.

EXPERIENCE

TRANSPORTATION POLICY ANALYST

Metropolitan Transportation Authority

2016 - Present

- Analyzed transportation policies to assess their impact on land use and urban development.
- Collaborated with urban planners to integrate transportation systems into land use strategies.
- Conducted studies on public transit accessibility and its effects on urban mobility.
- Developed policy recommendations to enhance transportation infrastructure and connectivity.
- Utilized GIS tools to visualize transportation networks and analyze land use interactions.
- Presented findings to stakeholders, advocating for sustainable transportation initiatives.

LAND USE PLANNER

City of Chicago Department of Transportation

2014 - 2016

- Managed land use planning projects focused on transportation integration and urban development.
- Collaborated with community stakeholders to gather input on transportation-related land use issues.
- Conducted data analyses to inform land use decisions related to transportation infrastructure.
- Prepared reports on land use policies and their implications for transportation planning.
- Presented findings to city officials to secure funding for transportation projects.
- Facilitated workshops to educate the public on the relationship between transportation and land use.
