EDUCATION

BACHELOR OF SCIENCE IN ENVIRONMENTAL PLANNING, UNIVERSITY OF WASHINGTON, 2015

ACHIEVEMENTS

- Instrumental in developing a land use policy that increased green space by 40% in urban areas.
- Recognized as 'Planner of the Year' by the National Association of Planners in 2022.
- Successfully facilitated over 20 community engagement events to gather input on land use projects.

PROFILE

Dynamic and results-driven Land Use Planner with a strong focus on sustainable development and community engagement. Extensive experience in crafting land use policies that promote environmental stewardship while enhancing economic vitality. Skilled in collaborating with governmental agencies, non-profits, and community groups to address land use challenges effectively. Expertise in leveraging analytical tools to assess land use trends and inform decision-making processes.

EXPERIENCE

LEAD LAND USE STRATEGIST

Sustainable Futures Group

2016 - Present

- Directed land use planning projects focused on sustainability and resilience.
- Engaged with community stakeholders to develop inclusive land use strategies.
- Analyzed demographic and environmental data to guide planning initiatives.
- Facilitated workshops to educate the public on sustainable land use practices.
- Collaborated with engineers and architects to integrate green building principles.
- Monitored project implementation to ensure adherence to sustainability goals.

ASSISTANT LAND USE PLANNER

Metropolitan Planning Organization

2014 - 2016

- Supported the development of regional land use plans with a focus on smart growth.
- Conducted public outreach to gather input on proposed land use changes.
- Assisted in the preparation of environmental review documents.
- Utilized GIS tools to map land use scenarios and impacts.
- Researched best practices in land use policy and presented findings to senior planners.
- Collaborated with various departments to align land use objectives with transportation planning.
