- Client communication
- Surgical procedures
- Nutrition management

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

DOCTOR OF VETERINARY MEDICINE,  
EQUINE SPECIALTY, COLLEGE OF  
VETERINARY MEDICINE, 2014

### ACHIEVEMENTS

- Recognized for outstanding service by the National Equine Health Association in 2020.
- Developed a successful equine wellness program adopted by multiple local stables.
- Published articles on equine health in leading veterinary journals.

### PROFILE

With a strong passion for large animal medicine and over eight years of experience, I have honed my skills in both clinical and field settings. My career began in a busy veterinary practice, where I gained invaluable hands-on experience with a variety of species including horses, cattle, and llamas. I specialize in equine medicine, having developed a particular interest in sports medicine and rehabilitation for performance horses.

### EXPERIENCE

#### EQUINE VETERINARIAN

##### Elite Equine Hospital

2016 - Present

- Diagnosed and treated a wide range of equine diseases using advanced diagnostic tools.
- Managed rehabilitation programs for injured racehorses, achieving a 90% return to competition.
- Performed routine and emergency surgeries, maintaining a 99% survival rate post-operation.
- Collaborated with trainers to implement performance-enhancing health plans tailored to individual horses.
- Conducted health checks and vaccinations for over 200 horses annually, ensuring compliance with competition standards.
- Educated horse owners on nutrition and preventive care, improving overall horse health.

#### LARGE ANIMAL VETERINARIAN

##### Farm & Equine Care Center

2014 - 2016

- Provided routine veterinary services for livestock including cattle and goats.
- Implemented herd health programs that increased overall herd productivity by 25%.
- Managed vaccination schedules to ensure optimal health and compliance with regulations.
- Conducted educational workshops on animal husbandry for local farmers, improving practices.
- Monitored and assessed animal nutrition to enhance growth rates in young stock.
- Participated in community health fairs to promote large animal care awareness.
