SKILLS

- Project management
- Systems integration
- Agile methodologies
- Risk assessment
- Stakeholder engagement
- Technical reporting

LANGUAGES

- English
- Spanish
- French

EDUCATION

**MASTER OF BUSINESS
ADMINISTRATION, PROJECT
MANAGEMENT, HARVARD
UNIVERSITY, 2010**

ACHIEVEMENTS

- Successfully delivered a multi-million dollar launch project ahead of schedule.
- Earned the 'Project Excellence Award' for outstanding project management.
- Increased team productivity by 25% through process improvements.

WORK EXPERIENCE

PROJECT MANAGER - LAUNCH VEHICLES

Galactic Enterprises

2020 - 2025

- Managed multiple launch vehicle projects, ensuring adherence to timelines and budgets.
- Led cross-functional teams to achieve project deliverables and objectives.
- Developed project plans and schedules, tracking progress against milestones.
- Facilitated stakeholder meetings to address project challenges and updates.
- Implemented Agile methodologies to enhance project efficiency and communication.
- Ensured compliance with aerospace regulations and standards throughout project lifecycle.

SENIOR LAUNCH VEHICLE ENGINEER

Cosmic Innovations

2015 - 2020

- Directed engineering efforts for the development of advanced launch systems.
- Collaborated with design teams to optimize vehicle performance and safety.
- Conducted risk assessments and developed mitigation plans for engineering projects.
- Authored technical reports and presentations for executive stakeholders.
- Mentored junior engineers, fostering professional development and growth.
- Participated in industry conferences to share insights and innovations.
