- Received the Community Impact Award for outstanding contributions to urban revitalization efforts.
- Published research on the effects of urban design on social equity in a peer-reviewed journal.

### PROFILE

Dynamic and results-oriented urban planner with extensive experience in strategic planning and urban revitalization projects. Specializes in integrating social equity principles into urban design, ensuring that developments serve diverse community needs. Demonstrated ability to lead cross-functional teams in delivering innovative solutions that enhance urban livability. Proficient in stakeholder engagement processes, fostering collaboration between public and private sectors to achieve shared vision outcomes.

### EXPERIENCE

#### LEAD URBAN PLANNER

##### Urban Revitalization Agency

2016 - Present

- Directed urban revitalization projects aimed at transforming underutilized areas into vibrant community hubs.
- Engaged with community leaders and residents to address concerns and incorporate feedback into project designs.
- Implemented zoning changes to facilitate mixed-use developments that support local businesses.
- Managed a team of planners and designers in the execution of comprehensive neighborhood plans.
- Utilized data analytics to assess the impact of urban policies and refine strategic initiatives.
- Presented findings and recommendations to city officials and stakeholders to secure project buy-in.

#### URBAN DESIGN CONSULTANT

##### Innovative Urban Solutions

2014 - 2016

- Provided expert consultation on urban design projects focusing on community engagement and inclusivity.
- Conducted comprehensive site analyses to inform design strategies tailored to local contexts.
- Facilitated design charrettes that brought together diverse stakeholders for collaborative planning.
- Developed urban design guidelines that promote sustainable and resilient community development.
- Analyzed demographic trends to inform strategic recommendations for housing and infrastructure.
- Collaborated with architects and engineers to create cohesive design proposals that meet regulatory standards.
