MICHAEL ANDERSON

PROJECT LEAD - LEAK DETECTION

Innovative Leak Detection Technician with a strong background in using advanced technologies for the detection and management of leaks in complex systems. Expertise in implementing effective leak detection strategies that minimize downtime and optimize resource allocation. Recognized for a strong analytical mindset and the ability to synthesize technical information into actionable insights.

PROFESSIONAL EXPERIENCE

EnviroTech Solutions

Mar 2018 - Present

Project Lead - Leak Detection

- Directed leak detection projects, ensuring alignment with client specifications and regulatory standards.
- Utilized drone technology for aerial inspections of large infrastructure.
- Managed project budgets and timelines effectively, achieving a 15% cost savings.
- Developed client relationships through exceptional service and follow-up.
- Implemented data analytics tools to enhance leak detection accuracy.
- Produced detailed project documentation and reports for stakeholders.

SafeWater Systems

Dec 2015 - Jan 2018

Leak Detection Technician

- Executed routine inspections using infrared thermography to detect underground leaks.
- Collaborated with engineers to design leak prevention solutions for industrial clients.
- Maintained accurate records of inspections and findings for compliance audits.
- Participated in the development of new leak detection technologies.
- Provided guidance on environmental best practices in leak management.
- Assisted in training new staff in the use of advanced leak detection equipment.

ACHIEVEMENTS

- Successfully led a project that reduced leak detection costs by 25%.
- Recognized with the Excellence in Service Award for outstanding project execution.
- Developed a training manual adopted company-wide for new leak detection methodologies.
