MICHAEL ANDERSON

LEARNING RESEARCH SPECIALIST

With a robust background in cognitive psychology and educational research, I have accumulated over 6 years of experience as a Learning Researcher in corporate training environments. My expertise lies in designing and executing research initiatives that inform the development of effective training programs. At JKL Corporation, I pioneered a project assessing the impact of gamification on employee training, leading to a 40% improvement in knowledge retention.

PROFESSIONAL EXPERIENCE

JKL Corporation

Mar 2018 - Present

Learning Research Specialist

- Developed research initiatives focused on training effectiveness, resulting in a 40% increase in employee knowledge retention.
- Conducted surveys and focus groups to gather qualitative and quantitative data on training programs.
- Collaborated with instructional designers to create research-backed training materials.
- Analyzed training data to identify trends and inform future program development.
- Presented findings to senior leadership, influencing corporate training strategies.
- Mentored junior researchers in data collection and analysis methodologies.

MNO Enterprises

Dec 2015 - Jan 2018

Training Coordinator

- Implemented training evaluation frameworks that improved program effectiveness by 30%.
- Facilitated workshops for employees on new training technologies and methodologies.
- Utilized data analytics to assess training outcomes and employee performance.
- Collaborated with cross-functional teams to enhance training delivery methods.
- Gathered feedback from participants to continuously improve training content.
- Designed e-learning modules that catered to diverse learning styles.

ACHIEVEMENTS

- Received 'Innovative Training Award' for outstanding contributions to employee development in 2022.
- Increased training completion rates by 35% through strategic program enhancements.
- Published research on gamification in corporate training in a well-known industry journal.
