EDUCATION

M.A. IN EDUCATIONAL PSYCHOLOGY,
HARVARD UNIVERSITY, 2011

ACHIEVEMENTS

- Published over 15 peer-reviewed articles in top-tier educational journals.
- Recipient of the Education Research Award in 2019 for outstanding contributions to the field.
- Designed an award-winning online course that was adopted by multiple universities.

PROFILE

I am a Learning Sciences Researcher with a robust background in psychology and education, focusing on how digital environments can optimize learning outcomes. With over 10 years of experience in academic research and applied learning technologies, I have developed a keen understanding of the cognitive processes involved in learning. My expertise lies in designing and evaluating educational interventions that are informed by empirical research.

EXPERIENCE

SENIOR LEARNING RESEARCHER

Global Education Innovations

2016 - Present

- Led a study on the impact of gamification in online learning, resulting in a 40% increase in course completion rates.
- Developed assessment tools to evaluate learner outcomes and inform curriculum design.
- Collaborated with international teams to implement research findings in diverse educational settings.
- Presented research at global conferences, enhancing the organization's visibility in the education sector.
- Mentored junior researchers and provided guidance on best practices in research methodologies.
- Utilized advanced statistical software to analyze complex data sets, leading to actionable insights.

EDUCATIONAL PSYCHOLOGIST

Learning Solutions Group

2014 - 2016

- Conducted assessments to identify barriers to learning and recommend appropriate interventions.
- Worked with educators to develop tailored learning plans that improved student outcomes.
- Trained teachers on psychological principles to enhance classroom management.
- Facilitated workshops on cognitive development and its implications for learning.
- Collaborated with parents to support student learning and development outside of school.
- Published articles in educational journals focused on psychological strategies in education.
