SUMMARY

A seasoned Legacy Systems Developer with over 10 years of experience in maintaining and enhancing critical legacy systems within the financial services sector. I have a strong background in COBOL and mainframe technologies, leveraging these skills to ensure seamless integration with modern systems. My career has been marked by a commitment to optimizing legacy applications, enhancing their performance, and ensuring compliance with industry regulations.

WORK EXPERIENCE

Senior Legacy Systems Developer ABC Financial Services   *Jan 2023 - Present*

- Maintained and optimized legacy COBOL applications, enhancing performance by 30%.
- Led a team of developers in a successful system migration project with 99% data accuracy.
- Collaborated with cross-functional teams to integrate legacy systems with new technologies.
- Conducted code reviews and implemented best practices, reducing bugs by 25%.
- Provided training and support for junior developers on legacy systems.
- Developed automated testing procedures to streamline legacy application updates.

Legacy Systems Analyst XYZ Bank   *Jan 2020 - Dec 2022*

- Analyzed legacy system performance and implemented enhancements, resulting in a 20% reduction in processing time.
- Designed and executed test plans to ensure system reliability during upgrades.
- Worked closely with business units to gather requirements for system modifications.
- Assisted in the transition of legacy systems to cloud-based solutions.
- Documented system processes and changes for compliance audits.
- Facilitated workshops to train users on updated legacy systems.

EDUCATION

Bachelor of Science in Computer Science, University of Technology, 2010   *Sep 2019 - Oct 2020*
