MICHAEL ANDERSON

SENIOR LEGACY SYSTEMS ENGINEER

Dynamic Legacy Systems Developer with 12 years of experience in the healthcare sector, focusing on the maintenance and upgrade of legacy health information systems. My background in both software development and healthcare operations allows me to understand user needs while ensuring compliance with health regulations. I have successfully led initiatives to modernize legacy systems, improving both functionality and user engagement.

PROFESSIONAL EXPERIENCE

HealthTech Solutions

Mar 2018 - Present

Senior Legacy Systems Engineer

- Led the upgrade of legacy patient management systems, increasing system efficiency by 35%.
- Collaborated with clinical staff to gather requirements for system enhancements.
- Implemented new security protocols to safeguard patient data in legacy systems.
- Executed training sessions for staff on new system functionalities.
- Conducted regular system audits to ensure compliance with healthcare regulations.
- Developed documentation for system updates and changes.

City Health Services

Dec 2015 - Jan 2018

Legacy Systems Developer

- Maintained and developed enhancements for legacy health information systems.
- Worked with cross-functional teams to integrate legacy systems with electronic health records (EHR).
- Provided technical support to users experiencing issues with legacy applications.
- Participated in system testing and validation to ensure reliable performance.
- Created user manuals and training materials for new system features.
- Analyzed system performance data to recommend further improvements.

ACHIEVEMENTS

- Successfully reduced system errors by 30% through thorough testing and quality assurance processes.
- Awarded 'Innovator of the Year' for implementing a new user feedback system to enhance legacy applications.
- Recognized for leading a project that improved patient data access for healthcare providers.
