## LEGACY SYSTEMS DEVELOPER

Results-driven Legacy Systems Developer with over 9 years of experience in the retail sector, focusing on the enhancement of legacy software applications that support e-commerce platforms. My expertise lies in ensuring that legacy systems can effectively interface with contemporary web technologies. I have successfully led projects to modernize legacy applications, which has improved system functionality and customer engagement.

## EXPERIENCE

### LEGACY SYSTEMS DEVELOPER

Retail Innovations Corp.

2016 - Present

- Enhanced legacy e-commerce systems, improving transaction processing speed by 30%.
- Collaborated with IT and marketing teams to integrate legacy systems with modern web applications.
- Conducted system performance assessments and implemented necessary upgrades.
- Developed user manuals and training sessions for staff on new system functionalities.
- Executed data migration strategies to ensure seamless transitions during upgrades.
- Analyzed customer feedback to drive continuous improvement initiatives.

### JUNIOR LEGACY SYSTEMS DEVELOPER

Global Retail Group

2014 - 2016

- Supported the maintenance of legacy retail management systems.
- Assisted in the integration of legacy systems with new point-of-sale technology.
- Participated in system testing and validation processes for updates.
- Provided technical support for users encountering issues with legacy applications.
- Documented system processes and changes for compliance purposes.
- Worked with cross-functional teams to identify areas for improvement in legacy systems.
