SKILLS

- Health Informatics
- Data Analysis
- SQL
- Dashboard Development
- Statistical Software
- Project Management

EDUCATION

MASTER'S IN HEALTH INFORMATICS, UNIVERSITY OF MICHIGAN

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Improved patient data tracking efficiency by 40% through dashboard implementation.
- Contributed to the successful completion of multiple clinical research projects.
- Recognized for excellence in analytical problem-solving.

Experienced Life Sciences Data Scientist with a focus on health informatics and real-world evidence generation. Specializes in the use of advanced analytics to understand patient populations and treatment outcomes, contributing to improved healthcare delivery. Strong background in database management and statistical software, allowing for effective data manipulation and analysis. Proven ability to collaborate with clinical and operational teams to ensure data accuracy and relevance in research projects.

EXPERIENCE

HEALTH INFORMATICS SPECIALIST

Merck

2016 - Present

- Analyzed health data to identify trends and inform treatment protocols.
- Developed dashboards for real-time monitoring of patient outcomes.
- Collaborated with IT to enhance data collection systems.
- Utilized SQL for database querying and management.
- Conducted training sessions for staff on data analysis tools.
- Presented findings to healthcare providers to inform clinical decisions.

DATA ANALYST

AstraZeneca

2014 - 2016

- Supported the analysis of real-world data for clinical research.
- Collaborated with researchers to design studies based on data insights.
- Utilized statistical software to perform complex analyses.
- Managed data integrity and adherence to regulatory standards.
- Presented analytical findings to project stakeholders.
- Contributed to the development of data management protocols.
