SKILLS

- Microbiology
- PCR
- ELISA
- Team Collaboration
- Quality Assurance
- Data Analysis

LANGUAGES

- English
- Spanish
- French

EDUCATION

MASTER'S IN MICROBIOLOGY, COLLEGE OF SCIENCE, 2017

ACHIEVEMENTS

- Published a paper on pathogen resistance in a leading microbiology journal.
- Recognized for excellence in research during annual lab evaluations.
- Contributed to a public health initiative that reduced infectious disease rates.

PROFILE

Results-oriented Life Sciences Lab Scientist with a focus on microbiology and immunology, possessing over 5 years of hands-on laboratory experience. Expert in employing various microbiological techniques for pathogen detection and analysis, contributing to public health initiatives. Proficient in managing laboratory operations, including inventory management and quality assurance. Experienced in mentoring interns and junior scientists, fostering a collaborative work environment.

EXPERIENCE

MICROBIOLOGIST

HealthGuard Labs

2016 - Present

- Conducted microbiological tests on clinical samples to identify pathogens.
- Developed standard operating procedures for new testing methods.
- Collaborated with public health officials on outbreak investigations.
- Utilized PCR and ELISA techniques to enhance diagnostic accuracy.
- Managed laboratory inventory, reducing waste by 15% through better forecasting.
- Presented research findings at regional health conferences.

LABORATORY ASSISTANT

Clinical Research Corp.

2014 - 2016

- Assisted with sample preparation and analysis for clinical trials.
- Maintained laboratory equipment and ensured compliance with safety protocols.
- Documented experimental procedures and results in lab notebooks.
- Supported the quality assurance team during audits and inspections.
- Participated in team meetings to discuss project updates and challenges.
- Contributed to a 30% reduction in turnaround time for test results.
