SKILLS

- Biostatistics
- Epidemiology
- Data Analysis
- R
- SAS
- Public Health

EDUCATION

M.P.H. IN EPIDEMIOLOGY, JOHNS HOPKINS UNIVERSITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Received the 'Excellence in Research Award' for outstanding contributions in 2020.
- Published a paper on disease modeling that has been cited over 100 times.
- Secured funding for a community health initiative aimed at reducing disease prevalence.

Michael Anderson

BIOSTATISTICIAN

Innovative Life Sciences Research Scientist with 6 years of experience in biostatistics and epidemiology. My expertise lies in the application of statistical methods to analyze complex biological data, with a focus on infectious diseases. I have successfully collaborated with multidisciplinary teams to design and conduct studies that inform public health policies.

EXPERIENCE

BIOSTATISTICIAN

Centers for Disease Control and Prevention

2016 - Present

- Conducted statistical analyses for studies on disease outbreaks, impacting public health responses.
- Utilized R and SAS for data manipulation and visualization, improving data interpretation accuracy.
- Collaborated with epidemiologists to design studies on infectious disease transmission.
- Presented findings to stakeholders, influencing policy decisions and funding allocations.
- Mentored interns on biostatistical methods and research practices.
- Published 3 articles in peer-reviewed journals, enhancing the organization's research visibility.

RESEARCH ASSISTANT

University of Michigan

2014 - 2016

- Assisted in epidemiological studies focusing on chronic disease risk factors.
- Performed data collection and management, ensuring data integrity and accuracy.
- Supported the development of research proposals for grant funding.
- Participated in community outreach programs to raise awareness about health issues.
- Contributed to the preparation of reports and presentations for stakeholders.
- Collaborated with faculty on research projects, enhancing learning opportunities.
