

MICHAEL ANDERSON

Lighting Technician

Experienced Lighting Technician with a focus on theatrical production lighting, possessing a profound understanding of the art and science of light. Noted for the ability to translate complex artistic concepts into tangible lighting effects that enhance narrative and performance. Proven experience in collaborating with directors, stage managers, and designers to create cohesive lighting designs that elevate the overall production value.

WORK EXPERIENCE

Lighting Technician 2020-2023

Theatrical Arts Company

- Implemented lighting designs for over 40 theatrical productions, enhancing storytelling through light.
- Worked closely with directors to create mood and atmosphere in performances.
- Operated and maintained a variety of lighting equipment, ensuring reliability and safety.
- Assisted in the development of lighting cues that synchronized with live performances.
- Conducted post-production evaluations to assess lighting effectiveness.
- Trained interns on basic lighting setups and safety protocols.

Assistant Lighting Technician 2019-2020

Stage Productions LLC

- Supported lighting setups for various theatrical performances, ensuring timely execution.
- Collaborated with production teams to align lighting with sound and set designs.
- Maintained inventory of lighting equipment, ensuring readiness for productions.
- Documented lighting configurations for future performances and reference.
- Engaged in safety briefings to uphold industry standards during productions.
- Provided technical support during live performances, addressing issues promptly.

ACHIEVEMENTS

- Awarded 'Best Lighting Design' at the Regional Theatre Awards in 2021.
- Contributed to a production that received critical acclaim for its lighting effects.
- Successfully trained over 10 interns in lighting techniques and safety practices.
