

MICHAEL ANDERSON

LIVESTOCK DATA ANALYST

PROFILE

Results-oriented Livestock Data Analyst with a robust background in agricultural economics and livestock management. Over 8 years of experience in analyzing livestock data to drive efficiency and profitability in farming operations. Skilled in employing advanced statistical techniques and software applications to interpret data trends and provide actionable insights. Adept at collaborating with farmers and production managers to develop data-driven strategies that enhance livestock health and productivity.

EXPERIENCE

LIVESTOCK DATA ANALYST

Farm Analytics Corp.

2016 - Present

- Analyzed livestock feeding patterns to optimize rations.
- Utilized Excel and Tableau for data visualization and reporting.
- Collaborated with farmers to implement data collection techniques.
- Presented analysis results to management for strategic planning.
- Developed machine learning models to predict livestock growth.
- Monitored industry trends to inform data collection practices.

JUNIOR DATA ANALYST

AgriData Insights

2014 - 2016

- Assisted in data collection and analysis for livestock studies.
- Created dashboards to track livestock performance metrics.
- Conducted market research to identify growth opportunities.
- Supported senior analysts in developing predictive models.
- Ensured data accuracy and integrity throughout projects.
- Participated in workshops to enhance data analysis skills.
