### WORK EXPERIENCE

#### SMALL RUMINANT VETERINARIAN

Green Valley Veterinary Services

2020 - 2025

- Provided veterinary care for over 200 sheep and goats, focusing on preventive health measures.
- Implemented a deworming program that reduced parasite loads by 50% in the first year.
- Conducted reproductive health assessments, leading to a 30% increase in lambing rates.
- Collaborated with farmers to develop customized nutrition plans, improving overall herd health.
- Delivered educational seminars on small ruminant care to local agricultural communities.
- Performed routine surgical procedures, ensuring animal welfare and rapid recovery.

#### VETERINARY INTERN

Farm Animal Health Clinic

2015 - 2020

- Assisted senior veterinarians in providing care for small ruminants, gaining hands-on experience.
- Participated in health assessments and vaccinations, contributing to the overall health of the flock.
- Learned to handle emergency situations under supervision, enhancing clinical skills.
- Maintained accurate health records for each animal, ensuring compliance with veterinary regulations.
- Engaged in community outreach programs to promote responsible livestock care.
- Supported the development of educational materials on small ruminant health management.
