## **EXPERTISE SKILLS**

- Fiber Optics
- Telecommunications
- Quality Assurance
- Project Management
- Troubleshooting
- Installation

## **LANGUAGES**

- English
- Spanish
- French

## **CERTIFICATION**

- Bachelor of Science in Telecommunications Engineering, Tech University, 2010

# MICHAEL ANDERSON

## TELECOMMUNICATIONS LOW VOLTAGE ENGINEER

Highly skilled Low Voltage Engineer with over 12 years of experience in the telecommunications sector, focusing on the installation and maintenance of low voltage systems that support communication technologies. My expertise lies in fiber optic installations, telecommunication systems, and data networks. I have a strong understanding of industry standards and a commitment to quality assurance that ensures all projects meet or exceed client expectations.

## **PROFESSIONAL EXPERIENCE**

### **FiberLink Communications**

*Mar 2018 - Present*

Telecommunications Low Voltage Engineer

- Oversaw the installation of fiber optic networks for commercial and residential clients.
- Conducted signal testing and troubleshooting to ensure system performance.
- Collaborated with project managers to develop project timelines and budgets.
- Trained junior engineers on fiber optic installation techniques and safety standards.
- Implemented a quality assurance program that reduced installation errors by 20%.
- Achieved a 100% compliance rate with industry regulations on all projects.

### **CommTech Services**

*Dec 2015 - Jan 2018*

Low Voltage Installer

- Installed low voltage communication systems in new construction and renovations.
- Performed routine maintenance and upgrades on existing systems to improve functionality.
- Assisted in the design of custom solutions tailored to client specifications.
- Utilized industry-standard tools for testing and quality assurance on installations.
- Documented all work performed to maintain accurate project records.
- Contributed to a project that increased network reliability by 30% through strategic upgrades.

## **ACHIEVEMENTS**

- Successfully completed over 150 fiber optic installations with zero safety incidents.
- Received the Excellence in Engineering award for outstanding project execution.
- Led a team that developed a new installation process, reducing time spent on-site by 15%.
