EDUCATION

CERTIFICATE IN NON-DESTRUCTIVE TESTING, VOCATIONAL SCHOOL, 2014

ACHIEVEMENTS

- Enhanced inspection processes, resulting in a 20% increase in operational efficiency.
- Recognized for achieving a 98% accuracy rate in defect detection over two consecutive years.
- Contributed to the successful certification of the facility under ISO 9001 standards.

Michael
ANDERSON

MAGNETIC PARTICLE INSPECTOR

Detail-oriented Magnetic Particle Testing Technician with robust experience in the fabrication and manufacturing sector. Renowned for a meticulous approach in conducting non-destructive testing to ensure product quality and adherence to industry standards. Proficient in employing cutting-edge magnetic testing technology and software to detect defects effectively. Recognized for strong analytical skills and the ability to interpret complex data sets, which enhances decision-making processes.

WORK EXPERIENCE

MAGNETIC PARTICLE INSPECTOR

Fabrication Quality Assurance Inc.

2020 - 2025

- Executed magnetic particle testing on fabricated components to ensure compliance with quality standards.
- Trained team members on the operation of magnetic testing equipment.
- Developed inspection documentation to improve traceability and accountability.
- Collaborated with engineering teams to address identified anomalies and propose corrective actions.
- Monitored inspection processes and made recommendations for improvements.
- Participated in safety drills and contributed to a safer workplace environment.

QUALITY CONTROL INSPECTOR

Manufacturing Excellence Group

2015 - 2020

- Conducted routine magnetic particle inspections on manufacturing components as part of quality control.
- Maintained detailed records of inspection results and communicated findings to management.
- Assisted in the implementation of ISO standards within the inspection process.
- Collaborated with production teams to ensure timely completion of inspections.
- Identified trends in inspection data to support continuous improvement initiatives.
- Facilitated training sessions on safety and quality assurance protocols.
