SKILLS

- heavy machinery maintenance
- CMMS
- data analysis
- project collaboration
- safety compliance
- training

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN
MECHANICAL ENGINEERING, STATE
UNIVERSITY, 2014**

ACHIEVEMENTS

- Awarded 'Top Performer' for consistently achieving maintenance targets.
- Implemented a maintenance tracking system that improved reporting accuracy by 40%.
- Reduced maintenance turnaround time by 15% through process improvements.

WORK EXPERIENCE

MAINTENANCE PLANNER

BuildRight Construction

2020 - 2025

- Created and managed maintenance schedules for heavy construction equipment, increasing uptime by 20%.
- Utilized maintenance management software to track equipment performance and maintenance history.
- Collaborated with project teams to coordinate maintenance activities with construction timelines.
- Developed maintenance checklists and procedures to standardize practices across teams.
- Conducted training sessions for operators on equipment maintenance protocols.
- Analyzed maintenance data to identify trends and implement improvements.

MAINTENANCE TECHNICIAN

Heavy Machinery Inc.

2015 - 2020

- Performed mechanical repairs and preventative maintenance on a fleet of construction machinery.
- Assisted in troubleshooting equipment failures, leading to a 30% reduction in downtime.
- Maintained accurate records of maintenance work performed and parts used.
- Participated in safety training and compliance checks to ensure workplace safety.
- Collaborated with engineers to improve equipment designs based on maintenance experiences.
- Supported the development of maintenance strategies that align with project goals.
