- incident response
- security policies
- threat hunting
- communication skills
- software security

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR'S DEGREE IN INFORMATION TECHNOLOGY

ACHIEVEMENTS

- Recognized for exceptional performance during a security incident response.
- Developed a malware analysis framework that increased efficiency by 20%.
- Implemented a security awareness program that reduced phishing incidents by 40%.

PROFILE

Detail-oriented Malware Analyst with 5 years of experience in the technology sector, focusing on malware detection and incident response. I have built a solid foundation in analyzing malware behavior and developing effective countermeasures. My expertise lies in utilizing tools like VirusTotal, Cuckoo Sandbox, and Snort for comprehensive analysis. I possess strong problem-solving skills and am adept at identifying security vulnerabilities and recommending enhancements.

EXPERIENCE

MALWARE ANALYST

TechSafe Solutions

2016 - Present

- Conducted malware analysis using static and dynamic analysis tools.
- Collaborated with software developers to integrate security into applications.
- Developed and maintained malware signatures for detection systems.
- Assisted in incident response efforts, ensuring timely remediation of threats.
- Provided training to IT staff on identifying phishing attempts and malware risks.
- Engaged in threat hunting activities that uncovered previously unknown vulnerabilities.

JUNIOR MALWARE ANALYST

SecureWave

2014 - 2016

- Performed initial analysis of malware samples, documenting findings for senior analysts.
- Assisted in the development of security policies and procedures.
- Participated in daily security monitoring and threat intelligence reporting.
- Created a knowledge base of malware signatures and attack vectors.
- Tested and evaluated security tools for effectiveness in malware detection.
- Contributed to team meetings by sharing insights and analysis results.
