MICHAEL ANDERSON

LEAD MALWARE ANALYST

Proactive Malware Analyst with a decade of experience in the telecommunications industry. My expertise includes identifying and neutralizing malware threats that could disrupt services and compromise customer data. I have a strong background in network security, using tools like Splunk, FireEye, and Palo Alto Networks to monitor and analyze suspicious activities.

PROFESSIONAL EXPERIENCE

TelecomSecure   *Mar 2018 - Present*
Lead Malware Analyst

- Managed a team of malware analysts in conducting threat assessments.
- Developed and implemented security strategies that reduced malware incidents by 30%.
- Led investigations into malware outbreaks, coordinating with IT and legal teams.
- Conducted regular training programs for employees on cybersecurity best practices.
- Monitored network traffic for anomalies indicative of malware activity.
- Created detailed reports for upper management on malware trends and incidents.

NetGuard Inc.   *Dec 2015 - Jan 2018*
Malware Analyst

- Engaged in real-time monitoring of network traffic to identify potential threats.
- Analyzed malware samples and reported findings to the cybersecurity team.
- Assisted in the design of security infrastructure to prevent malware infections.
- Provided support during security audits, ensuring compliance with industry standards.
- Collaborated with external vendors to enhance malware detection capabilities.
- Documented procedures for malware analysis and incident response.

ACHIEVEMENTS

- Successfully reduced malware outbreak response time by 50% through improved processes.
- Awarded 'Best Team Leader' for outstanding performance in cybersecurity initiatives.
- Published articles on malware trends in industry journals, enhancing company reputation.
