

MICHAEL ANDERSON

Cloud Security Malware Analyst

Experienced Malware Analyst with a focus on cloud security and a background of over 9 years in the tech industry. My career has revolved around ensuring the security of cloud environments and preventing malware threats that can compromise data integrity. I am skilled in using tools like AWS Security Hub, Azure Security Center, and various SIEM solutions to monitor and analyze security incidents.

WORK EXPERIENCE

Cloud Security Malware Analyst

2020-2023

CloudSafe Solutions

- Monitored cloud environments for malware threats using advanced security tools.
- Developed and implemented security protocols for cloud applications.
- Collaborated with development teams to ensure secure coding practices.
- Conducted threat assessments to identify vulnerabilities in cloud infrastructure.
- Led incident response efforts to remediate malware attacks in cloud systems.
- Provided training on cloud security best practices to IT staff.

Malware Analyst

2019-2020

TechCloud Innovations

- Analyzed malware threats targeting cloud services and applications.
- Supported the development of a cloud security framework to mitigate risks.
- Conducted regular security audits on cloud configurations and settings.
- Engaged in incident response procedures to handle malware infections.
- Maintained up-to-date knowledge of cloud security regulations and best practices.
- Documented security incidents and provided recommendations for improvement.

ACHIEVEMENTS

- Reduced cloud malware incidents by 45% through proactive security measures.
- Recognized for developing a comprehensive cloud security training program.
- Contributed to the successful migration of secure cloud environments for clients.
