- French

EDUCATION

MASTER OF SCIENCE IN INDUSTRIAL ENGINEERING, PURDUE UNIVERSITY

ACHIEVEMENTS

- Implemented a waste reduction program that saved \$200,000 annually.
- Recognized for outstanding performance with a company award.
- Successfully completed certification in Automation Engineering.

PROFILE

Dynamic Manufacturing Automation Engineer with 5 years of experience specializing in the food and beverage industry. Skilled in designing automated systems that ensure compliance with safety regulations while enhancing production efficiency. Recognized for deploying innovative solutions that reduce waste and optimize resource usage. Proficient in using advanced automation tools and software to integrate new technologies into existing lines.

EXPERIENCE

MANUFACTURING AUTOMATION SPECIALIST

FreshBrew Ltd.

2016 - Present

- Designed and installed automated bottling systems that increased throughput by 20%.
- Conducted training sessions for staff on new automated systems.
- Improved compliance with safety standards through automated monitoring.
- Analyzed production data to identify areas for process improvement.
- Led initiatives to reduce waste by implementing lean manufacturing principles.
- Collaborated with suppliers to source new automation technologies.

JUNIOR AUTOMATION ENGINEER

Beverage Tech Systems

2014 - 2016

- Assisted in the design of automated packaging systems.
- Monitored production lines to ensure optimal performance.
- Prepared documentation for system installations and upgrades.
- Participated in team meetings to discuss project timelines and goals.
- Conducted troubleshooting and maintenance of automated equipment.
- Supported senior engineers in project execution and reporting.
