EDUCATION

Bachelor of Science in Textile Engineering

North Carolina State University
2016-2020

SKILLS

- Data Collection
- Production Analysis
- Dashboard Development
- Data Integrity
- Process Optimization
- Communication

LANGUAGES

- English
- Spanish
- French

Motivated Manufacturing Data Analyst with over 4 years of experience in the textiles industry, specializing in data collection and analysis for production optimization. Strong analytical skills complemented by the ability to communicate insights effectively to various stakeholders. Proven ability to identify trends and recommend actionable solutions that drive operational improvements. Adept at using analytical tools to enhance decision-making processes and support business objectives.

WORK EXPERIENCE

Data Analyst   2020-2023

Textile Innovations Ltd.

- Analyzed production line data to identify inefficiencies and recommend process improvements.
- Developed and maintained dashboards to track production performance metrics.
- Collaborated with teams to implement data-driven changes that enhanced production workflows.
- Supported management in strategic planning by providing data insights on production trends.
- Ensured data integrity by implementing standardized data collection practices.
- Presented findings to management, leading to a 10% reduction in production costs.

Junior Data Analyst   2019-2020

Fabric Dynamics Inc.

- Assisted in data collection and analysis to support production optimization initiatives.
- Created reports detailing production efficiency and quality metrics for management review.
- Engaged with production teams to understand data needs and improve data collection processes.
- Contributed to team meetings by presenting data insights and suggesting improvements.
- Played a key role in the development of a new data management system that increased reporting accuracy.
- Supported the implementation of training programs focused on data entry and analysis.

ACHIEVEMENTS

- Implemented process changes that resulted in a 15% increase in production efficiency.
- Recognized for outstanding contributions to data management during quarterly reviews.
- Successfully developed a reporting system that improved data accuracy by 30%.
