Experienced Manufacturing Engineer with over 9 years in the pharmaceutical industry, focusing on process validation and compliance with Good Manufacturing Practices (GMP). Eager to leverage expertise in sterile manufacturing environments to enhance productivity and product quality. Known for strong problem-solving skills and the ability to lead cross-functional teams in high-stakes situations.

💼 WORK EXPERIENCE

Senior Manufacturing Engineer
2020-2023

PharmaTech Solutions

- Led process validation efforts for new pharmaceutical products, ensuring compliance with industry regulations.
- Optimized sterile manufacturing processes, achieving a 20% increase in efficiency.
- Developed and maintained documentation for quality assurance and compliance audits.
- Trained staff on GMP standards and best practices for sterile operations.
- Collaborated with quality control teams to address non-conformance issues effectively.
- Implemented process improvements that reduced production costs by 15%.

Manufacturing Engineer
2019-2020

HealthFirst Pharmaceuticals

- Assisted in the design and implementation of new production lines for sterile products.
- Conducted audits of manufacturing processes to ensure compliance with GMP.
- Monitored production data to identify trends and areas for improvement.
- Collaborated with R&D to ensure manufacturability of new products.
- Provided technical support to production teams during operational challenges.
- Maintained thorough documentation for process validations and changes.

★ ACHIEVEMENTS

- Successfully led a project that reduced product release times by 30%.
- Recognized for excellence in compliance audits, receiving the 'Compliance Champion' award.
- Contributed to a project that achieved a significant reduction in production errors.
