

MICHAEL ANDERSON

MANUFACTURING PLANNING ENGINEER

PROFILE

Results-oriented Manufacturing Planning Engineer with 5 years of experience in the electronics sector. Expertise in supply chain management and production optimization strategies. Demonstrated ability to drive efficiency improvements and reduce costs while maintaining high-quality standards. Strong analytical skills with a focus on data-driven decision-making and continuous process improvement. Excellent team player with a proactive approach to identifying and resolving production challenges.

EXPERIENCE

MANUFACTURING PLANNING ENGINEER

Electro Innovations

2016 - Present

- Created detailed production schedules based on customer demand and inventory levels.
- Collaborated with suppliers to enhance material quality and reduce lead times.
- Implemented Six Sigma methodologies to improve defect rates in production.
- Conducted capacity planning to ensure optimal use of manufacturing resources.
- Utilized data analytics tools to forecast production needs accurately.
- Facilitated communication between engineering and production teams to align goals.

JUNIOR MANUFACTURING ENGINEER

TechGadget Corp.

2014 - 2016

- Assisted in developing lean manufacturing processes for new product launches.
- Monitored production lines to ensure compliance with safety and quality standards.
- Participated in Kaizen events to drive continuous improvement initiatives.
- Collected and analyzed production data to identify trends and inefficiencies.
- Supported the training of new staff on production protocols and equipment.
- Maintained accurate records of production metrics and reporting.
