MICHAEL ANDERSON

SENIOR MANUFACTURING SAFETY ENGINEER

Detail-oriented Manufacturing Safety Engineer with over 12 years of experience in the food processing industry. Strong background in developing and executing safety policies to ensure compliance with FDA and OSHA regulations. Proven ability to conduct thorough risk assessments and implement effective safety training programs to minimize workplace hazards. Highly skilled in incident investigation and root cause analysis, with a focus on continuous improvement.

PROFESSIONAL EXPERIENCE

Fresh Foods Inc.

Mar 2018 - Present

Senior Manufacturing Safety Engineer

- Led safety initiatives that resulted in a 40% reduction in workplace accidents over three years.
- Developed and implemented training programs tailored to food safety standards, achieving 100% employee compliance.
- Conducted regular audits and inspections, ensuring adherence to FDA regulations.
- Performed root cause analyses for incidents and developed corrective action plans to prevent recurrences.
- Collaborated with management to enhance safety protocols and emergency response procedures.
- Facilitated safety meetings and workshops to promote safety awareness among staff.

Quality Food Co.

Dec 2015 - Jan 2018

Health and Safety Officer

- Implemented safety training for over 200 employees, resulting in improved safety practices.
- Conducted safety inspections and provided recommendations for hazard mitigation.
- Assisted in the development of company safety policies in compliance with regulatory standards.
- Monitored safety equipment and ensured proper usage and maintenance.
- Engaged in incident investigations, documenting findings and reporting to senior management.
- Promoted a culture of safety through employee engagement initiatives and communication strategies.

ACHIEVEMENTS

- Achieved a significant reduction in product recalls linked to safety issues by 50% within two years.
- Recognized for excellence in safety training programs, receiving a company award for innovation.
- Successfully led a project that improved safety audit scores by 35%.
