EDUCATION

M.S. IN DATA ANALYTICS, TECH UNIVERSITY

ACHIEVEMENTS

- Achieved a 30% increase in student retention rates through enhanced learning experiences.
- Recipient of the 'Innovative Educator Award' in 2021 for excellence in teaching.
- Developed a widely adopted online course on market research analytics.

WORK EXPERIENCE

TECHNOLOGY-ENHANCED LEARNING COORDINATOR

Future Market Insights

2020 - 2025

- Implemented technology-driven learning solutions to enhance market research education.
- Designed interactive e-learning modules that increased student engagement.
- Conducted training sessions for educators on integrating technology in the classroom.
- Evaluated the effectiveness of educational technologies in improving learning outcomes.
- Collaborated with IT teams to develop user-friendly learning platforms.
- Monitored industry trends to continuously innovate educational offerings.

MARKET RESEARCH EDUCATOR

Tech University

2015 - 2020

- Taught quantitative research methods and data analysis courses.
- Developed course content that incorporated emerging technologies and tools.
- Supervised capstone projects that utilized real-world data for analysis.
- Organized hackathons to foster practical application of research techniques.
- Engaged students in collaborative projects with industry partners.
- Published articles on the impact of technology in market research education.
