#### SKILLS

- construction materials
- project management
- sustainability
- laboratory testing
- compliance standards
- technical support

#### LANGUAGES

- English
- Spanish
- French

#### EDUCATION

**BACHELOR OF SCIENCE IN CIVIL ENGINEERING, TEXAS A&M UNIVERSITY, 2015**

#### ACHIEVEMENTS

- Led a project that implemented sustainable materials, reducing carbon footprint by 25%.
- Received 'Outstanding Performance Award' for contributions to project success.
- Successfully reduced material costs by 15% through supplier negotiations.

#### WORK EXPERIENCE

##### MATERIALS ENGINEER

BuildRight Engineering

2020 - 2025

- Evaluated materials for use in large-scale infrastructure projects, ensuring quality standards.
- Performed laboratory tests on construction materials to determine strength and durability.
- Collaborated with project managers to ensure timely procurement of materials.
- Developed guidelines for the use of sustainable materials in construction practices.
- Provided technical support to contractors during the construction phase.
- Conducted site inspections to verify material compliance with project specifications.

##### JUNIOR MATERIALS ENGINEER

Concrete Solutions Ltd.

2015 - 2020

- Assisted in the selection of materials for various construction projects.
- Conducted field tests to assess material performance under different conditions.
- Maintained records of material samples and testing results for project documentation.
- Supported senior engineers in preparing project specifications and reports.
- Participated in supplier evaluations to ensure quality materials are sourced.
- Provided feedback on material issues and solutions to improve project outcomes.
