# Michael Anderson

## GLOBAL HEALTH PROGRAM OFFICER

Dynamic Maternal and Child Health Specialist with over 6 years of experience in global health and humanitarian settings. Skilled in developing and implementing maternal health programs that address the needs of diverse populations in crisis situations. I have worked with various NGOs and international organizations to design interventions that improve maternal health outcomes in low-resource environments.

## EXPERIENCE

### GLOBAL HEALTH PROGRAM OFFICER

International Relief Organization

2016 - Present

- Led maternal health initiatives in refugee settings, reaching over 10,000 women.
- Developed training programs for local health workers on maternal care.
- Conducted needs assessments to identify gaps in maternal health services.
- Collaborated with international partners to implement health programs.
- Managed project budgets and ensured compliance with funding requirements.
- Monitored and evaluated program outcomes to drive continuous improvement.

### MATERNAL HEALTH CONSULTANT

World Health Organization

2014 - 2016

- Provided technical assistance on maternal health policy development.
- Designed and implemented research studies on maternal care in conflict zones.
- Engaged with local government entities to improve health infrastructure.
- Facilitated stakeholder workshops to promote maternal health initiatives.
- Authored policy briefs that informed global health strategies.
- Advocated for funding allocation for maternal health programs in underfunded areas.
