EDUCATION

MASTER OF SCIENCE IN HEALTH INFORMATICS, UNIVERSITY OF TECHNOLOGY IN HEALTH, 2018

ACHIEVEMENTS

- Launched a mobile health initiative that reached 15,000 women in rural areas.
- Received the Innovative Health Solutions Award in 2022 for outstanding contributions.
- Published research on the impact of technology in maternal health in a peer-reviewed journal.

HEALTH INFORMATICS SPECIALIST

Innovative Maternal Health Program Officer with a deep commitment to improving health systems through technology and data-driven solutions. Expertise in integrating health information systems into maternal health programs, enhancing data collection and analysis for better program outcomes. Proven ability to lead multidisciplinary teams in the development of technology-enhanced maternal health interventions.

WORK EXPERIENCE

HEALTH INFORMATICS SPECIALIST

Tech for Health

2020 - 2025

- Developed and implemented a mobile application that improved prenatal care tracking for over 20,000 users.
- Conducted training sessions for healthcare providers on utilizing health informatics tools.
- Analyzed data trends to identify areas for improvement in maternal health services.
- Collaborated with software developers to enhance app features based on user feedback.
- Managed project timelines and deliverables to ensure timely implementation.
- Facilitated focus groups to assess user experience and satisfaction with the app.

MATERNAL HEALTH PROGRAM ANALYST

Health Systems Agency

2015 - 2020

- Conducted comprehensive data analysis to assess maternal health program effectiveness.
- Developed reports that informed stakeholders of program outcomes and areas for improvement.
- Collaborated with health departments to integrate data systems for better maternal care.
- Provided technical assistance to healthcare providers on data reporting requirements.
- Facilitated training on data usage and interpretation for program staff.
- Participated in policy discussions to advocate for data-driven maternal health initiatives.
