### WORK EXPERIENCE

**Maternal Health Project Manager** 2020-2023  
International Health Organization

- Managed a multi-country maternal health project that improved access to care for 50,000 women.
- Developed training programs for local health workers on best practices in maternal care.
- Conducted program evaluations to assess impact and inform future strategies.
- Collaborated with international partners to secure funding for maternal health initiatives.
- Advocated for policy changes to improve maternal health services in target countries.
- Led community engagement efforts to promote maternal health awareness and education.

**Community Health Advisor** 2019-2020  
Global Health Alliance

- Provided technical assistance to local organizations in implementing maternal health programs.
- Facilitated workshops to educate communities on maternal health issues and resources.
- Conducted needs assessments to identify gaps in maternal health services.
- Collaborated with stakeholders to develop culturally relevant health interventions.
- Monitored and evaluated program outcomes to ensure effectiveness.
- Reported findings to stakeholders and recommended improvements.

### ACHIEVEMENTS

- Increased maternal health service delivery by 35% in underserved regions.
- Recipient of the Global Health Innovation Award in 2022.
- Successfully implemented a maternal health education campaign that reached over 20,000 women.
