

Michael ANDERSON

MEDICAL DEVICE CALIBRATION TECHNICIAN

Versatile Mechanical Calibration Technician with a solid foundation of 5 years in the calibration and maintenance of medical devices within healthcare environments. Demonstrated expertise in ensuring compliance with stringent regulatory standards such as ISO 13485, which governs medical device quality management systems. Strong analytical capabilities paired with a commitment to safety and precision in all calibration activities.

SKILLS

- Medical device calibration
- ISO 13485 compliance
- Regulatory standards
- Troubleshooting
- Staff training
- Quality assurance

LANGUAGES

- English
- Spanish
- French

EDUCATION

CERTIFICATION IN BIOMEDICAL EQUIPMENT TECHNOLOGY

ACHIEVEMENTS

- Achieved a 98% compliance rate during internal audits of calibration processes.
- Enhanced operational efficiency by implementing a new calibration tracking system.
- Received recognition for outstanding contributions to the team from management.

WORK EXPERIENCE

MEDICAL DEVICE CALIBRATION TECHNICIAN

HealthTech Solutions

2020 - 2025

- Conducted calibration and maintenance of medical imaging devices and monitoring equipment.
- Ensured compliance with ISO 13485 and FDA regulations during calibration processes.
- Performed regular audits of calibration records and documentation.
- Provided training to staff on proper use and care of calibrated devices.
- Collaborated with engineering teams to troubleshoot equipment issues.
- Implemented a tracking system for calibration schedules, improving efficiency.

CALIBRATION TECHNICIAN INTERN

CureMed Devices

2015 - 2020

- Supported calibration activities for various medical devices.
- Assisted in data collection and analysis for calibration reports.
- Helped maintain accurate records for regulatory compliance.
- Engaged in training sessions regarding medical device standards.
- Contributed to process improvement initiatives focused on quality.
- Shadowed senior technicians to learn advanced calibration techniques.
