EXPERTISE SKILLS

- Metrology
- Statistical Process Control
- Quality Assurance
- Technical Documentation
- Team Collaboration
- Engineering Drawings

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Mechanical Engineering Technology, State University

MICHAEL ANDERSON

MECHANICAL INSPECTION SPECIALIST

Proficient and detail-oriented Mechanical Inspection Technician with 7 years of dedicated experience within the automotive and aerospace sectors. Expertise in employing precision measurement tools and advanced inspection techniques to ensure product conformity and enhance operational efficiency. Demonstrates a strong capability to interpret technical specifications and engineering drawings, facilitating accurate assessments of component quality.

PROFESSIONAL EXPERIENCE

AeroTech Industries

Mar 2018 - Present

Mechanical Inspection Specialist

- Performed detailed inspections of aerospace components using advanced measurement systems.
- Collaborated with engineers to refine inspection protocols and improve quality outcomes.
- Utilized statistical process control techniques to monitor and enhance inspection processes.
- Documented inspection data and generated reports for quality assurance reviews.
- Participated in design reviews to provide insights on manufacturability.
- Maintained inspection equipment and ensured compliance with calibration standards.

AutoPrecision Corp.

Dec 2015 - Jan 2018

Quality Control Inspector

- Conducted inspections of automotive parts and assemblies to ensure compliance with quality specifications.
- Utilized various measuring instruments to assess product dimensions and tolerances.
- Engaged in cross-functional teams to identify and resolve quality-related issues.
- Developed inspection reports and presented findings to management.
- Assisted in the implementation of ISO 9001 quality management standards.
- Provided training on inspection techniques to new team members.

ACHIEVEMENTS

- Increased inspection efficiency by 20% through the implementation of new measurement technologies.
- Recognized for outstanding contributions to quality improvement projects.
- Achieved a 15% reduction in non-conformance rates in production.
