- French

### WORK EXPERIENCE

#### Quality Assurance Testing Technician

2020-2023

Manufacturing Quality Solutions

- Executed quality assurance tests on manufactured products to ensure compliance with specifications.
- Collaborated with production teams to develop and refine quality control processes.
- Documented testing procedures and results to maintain compliance with industry standards.
- Conducted root cause analysis of quality failures and recommended corrective actions.
- Trained staff on quality assurance practices and testing methodologies.
- Participated in continuous improvement initiatives to enhance product quality.

#### Mechanical Testing Technician

2019-2020

Precision Manufacturing Co.

- Performed mechanical tests on products to determine performance and durability.
- Assisted in the development of testing plans and specifications for new products.
- Maintained testing equipment and ensured accuracy in measurements.
- Collaborated with engineers to analyze test data and implement improvements.
- Documented testing activities and results for quality assurance reviews.
- Engaged in team meetings to discuss quality metrics and improvement strategies.

### ACHIEVEMENTS

- Improved product quality ratings by 15% through enhanced testing protocols.
- Received recognition for outstanding contributions to quality improvement projects.
- Successfully led a team initiative that reduced defect rates by 20%.
