WORK EXPERIENCE

HVAC Mechanical Technician 2020-2023

Climate Control Services

- Executed installation and maintenance of HVAC systems for commercial clients.
- Conducted energy audits to identify opportunities for efficiency improvements.
- Diagnosed and resolved mechanical issues to maintain optimal system performance.
- Collaborated with project managers to deliver HVAC solutions on time and within budget.
- Maintained detailed documentation of installation and maintenance activities.
- Trained junior staff on HVAC best practices and safety protocols.

Mechanical Technician 2019-2020

Advanced HVAC Solutions

- Performed routine inspections and maintenance on HVAC systems to ensure compliance with safety standards.
- Executed repairs on various HVAC components, enhancing system efficiency.
- Engaged in troubleshooting HVAC issues using advanced diagnostic tools.
- Documented service activities and provided reports to management for review.
- Collaborated with engineers to develop innovative HVAC solutions for energy conservation.
- Participated in training programs to improve technical skills and knowledge.

ACHIEVEMENTS

- Improved energy efficiency of HVAC systems by 30% for multiple commercial clients.
- Received recognition for excellence in customer service and project execution.
- Contributed to a project that reduced energy consumption by 20% across a facility.
