Michael Anderson

HEALTH ECONOMIST DATA SCIENTIST

Skilled Medical Data Scientist with a focus on health economics and outcomes research. With 7 years of experience in analyzing healthcare data to evaluate the cost-effectiveness of medical interventions, I am proficient in using advanced statistical methods and software tools to derive actionable insights. My work has contributed to policy changes that enhance patient access to care and improve health outcomes.

EXPERIENCE

HEALTH ECONOMIST DATA SCIENTIST

Economics of Health, Inc.

2016 - Present

- Conducted cost-effectiveness analyses of new medical therapies, influencing payer decisions.
- Utilized statistical software to analyze large health datasets for policy recommendations.
- Collaborated with healthcare providers to assess the economic impact of treatment options.
- Presented findings to stakeholders, enhancing understanding of economic evaluations.
- Trained staff on health economics principles and data analysis techniques.
- Published research that informed state health policy changes.

SENIOR DATA ANALYST - HEALTH OUTCOMES

Health Outcomes Research Institute

2014 - 2016

- Analyzed patient-reported outcomes to assess treatment effectiveness.
- Developed reports that provided insights into healthcare utilization and costs.
- Worked with clinical teams to gather data for health economics studies.
- Assisted in grant applications by providing economic analysis data.
- Trained junior analysts on health data analysis methodologies.
- Participated in research collaborations that led to peer-reviewed publications.
