- French

WORK EXPERIENCE

Clinical Research Associate

2020-2023

University Medical Center

- Assisted in the design and implementation of clinical trials to evaluate new treatment protocols.
- Managed data entry and analysis, ensuring accuracy and compliance with regulatory standards.
- Conducted patient interviews to gather information on treatment outcomes.
- Collaborated with principal investigators to prepare research reports and publications.
- Facilitated training sessions for staff on research protocols and data management.
- Presented preliminary findings at department meetings to inform ongoing research efforts.

Research Intern

2019-2020

Clinical Research Institute

- Supported data collection efforts for clinical studies assessing treatment efficacy.
- Conducted literature reviews to inform research project development.
- Assisted in preparing materials for IRB submissions.
- Participated in team meetings to discuss research progress and findings.
- Analyzed data using SPSS to support research conclusions.
- Contributed to the writing of grant proposals for funding opportunities.

ACHIEVEMENTS

- Contributed to a published study that improved treatment protocols for diabetes management.
- Recognized for excellence in research with the 'Outstanding Intern Award' in 2018.
- Secured a research grant for a pilot study on patient care interventions.
