- French

EDUCATION

BACHELOR'S IN BIOLOGY, UNIVERSITY OF CALIFORNIA, BERKELEY

ACHIEVEMENTS

- Contributed to a successful drug approval that resulted in a 30% market share increase.
- Authored 2 publications in industry journals focused on clinical research methodologies.
- Recognized for outstanding teamwork and collaboration within cross-functional teams.

PROFILE

Results-oriented Medical Research Analyst with 5 years of experience in pharmaceutical research. Expertise in data collection and analysis for clinical trials, with a strong background in biostatistics and epidemiology. Adept at using various research methodologies to provide insights that enhance drug development processes. Known for strong analytical skills, attention to detail, and the ability to communicate complex information clearly.

EXPERIENCE

MEDICAL RESEARCH ANALYST

PharmaTech Labs

2016 - Present

- Performed statistical analyses on trial data using SPSS, leading to a 20% increase in data accuracy.
- Coordinated with clinical teams to ensure adherence to study protocols and timelines.
- Developed data visualization tools that enhanced data interpretation for stakeholders.
- Conducted site visits to monitor trial progress and compliance.
- Prepared comprehensive reports for regulatory submission, achieving a 100% approval rate.
- Facilitated training sessions for new analysts on data management techniques.

JUNIOR RESEARCH ANALYST

MediSync Research

2014 - 2016

- Supported senior analysts in managing data for multiple clinical trials.
- Assisted in the preparation of research proposals and grant applications.
- Gathered and analyzed patient demographic data to assess study feasibility.
- Participated in team meetings to discuss project progress and findings.
- Contributed to maintaining an organized research database for easy access to historical data.
- Helped develop patient recruitment strategies to improve enrollment rates.
