

MICHAEL ANDERSON

SENIOR RESEARCH MANAGER

PROFILE

Accomplished Medical Research Operations Specialist with over 10 years of diverse experience in clinical research, specializing in oncology studies. Adept at leading research initiatives from conception through execution, ensuring alignment with regulatory standards and industry best practices. Strong analytical skills complemented by a solid foundation in statistics and data management, enabling informed decision-making and strategic planning.

EXPERIENCE

SENIOR RESEARCH MANAGER

OncoResearch Group

2016 - Present

- Led a team of researchers in the design and execution of oncology clinical trials.
- Ensured compliance with GCP and FDA regulations, resulting in zero audit findings for three consecutive years.
- Developed comprehensive project plans that improved operational efficiency by 20%.
- Monitored trial progress and adjusted strategies to address challenges proactively.
- Engaged with key opinion leaders to enhance study design and recruitment efforts.
- Utilized data visualization tools to present findings to stakeholders effectively.

CLINICAL TRIALS ASSOCIATE

MedStar Research Institute

2014 - 2016

- Coordinated logistics for clinical trials, including site selection and patient recruitment.
- Developed and maintained study documentation to ensure compliance with regulatory standards.
- Conducted monitoring visits to assess site compliance and data accuracy.
- Collaborated with data management teams to ensure quality data collection.
- Provided training to new staff on clinical trial protocols and procedures.
- Presented interim study results at professional conferences, enhancing the institute's visibility.
