- Developed a toolkit for community organizations to assess health needs effectively.

Insightful Medical Research Policy Analyst with over 4 years of experience focused on public health policies and community health initiatives. Strong background in qualitative research and policy analysis, with a commitment to improving health outcomes through informed decision-making. Experienced in conducting needs assessments and community surveys to identify healthcare gaps. Proficient in utilizing various analytical tools to evaluate program effectiveness and policy impacts.

WORK EXPERIENCE

PUBLIC HEALTH POLICY ANALYST

Community Health Solutions
2020 - 2025

- Conducted needs assessments to identify gaps in community health services and inform policy development.
- Collaborated with local health departments to analyze the impact of public health initiatives on community wellness.
- Facilitated focus groups to gather qualitative data on community health challenges and preferences.
- Utilized data visualization tools to present findings to stakeholders and drive policy change.
- Authored reports that provided evidence-based recommendations for improving public health programs.
- Engaged with community leaders to foster partnerships aimed at enhancing health resources.

RESEARCH ASSISTANT

Institute for Community Health
2015 - 2020

- Assisted in the evaluation of community health programs funded by state and federal grants.
- Conducted interviews and surveys to collect data on program effectiveness and community satisfaction.
- Collaborated with a team to analyze qualitative and quantitative data, leading to improved program outcomes.
- Supported the development of training materials for community health workers on policy changes.
- Participated in community outreach efforts to raise awareness about health initiatives.
- Contributed to the preparation of research publications and presentations at local conferences.
