### WORK EXPERIENCE

#### Digital Learning Specialist

2020-2023

E-Mental Health Solutions

- Developed and launched online mental health courses that reached over 2,000 participants in the first year.
- Created engaging multimedia content that enhanced learning experiences and improved retention rates by 30%.
- Conducted user testing and collected feedback to refine course offerings, ensuring user satisfaction.
- Collaborated with mental health professionals to ensure course content was evidence-based and relevant.
- Utilized analytics to monitor course progress and outcomes, leading to continuous content improvement.
- Implemented marketing strategies that increased course enrollment by 150% within the first six months.

#### Mental Health Workshop Facilitator

2019-2020

Community Online Learning Center

- Designed and facilitated virtual workshops focusing on mental health awareness, engaging over 1,000 participants.
- Utilized interactive tools to promote participation and discussion, enhancing overall learning experiences.
- Created resource materials that participants could utilize after workshops, extending learning beyond the session.
- Evaluated workshop effectiveness through participant feedback, leading to a 40% increase in satisfaction ratings.
- Collaborated with community organizations to promote workshops, increasing attendance by 60%.
- Adapted content based on participant demographics, ensuring relevance and accessibility.

### ACHIEVEMENTS

- Recognized for excellence in digital content creation with an award from the National Education Association in 2021.
- Increased online course completion rates by 50% through interactive learning
