MICHAEL ANDERSON

DIRECTOR OF POLICY INNOVATION

Innovative Mental Health Policy Researcher with a focus on integrating technology into mental health services. With over 12 years of experience in the healthcare technology sector, I have been at the forefront of developing policies that leverage digital tools to enhance mental health care delivery. My work has involved collaborating with tech companies, healthcare providers, and policymakers to create frameworks that support the use of telehealth and mobile health applications.

PROFESSIONAL EXPERIENCE

Tech4Health Solutions

Mar 2018 - Present

Director of Policy Innovation

- Developed and implemented policies to promote the use of telehealth in mental health services.
- Analyzed user data to assess the effectiveness of digital mental health interventions.
- Collaborated with IT teams to ensure compliance with health regulations.
- Engaged with mental health professionals to understand technology integration challenges.
- Presented policy recommendations to stakeholders, resulting in increased funding for digital health initiatives.
- Published reports on the future of technology in mental health policy.

Health Innovation Lab

Dec 2015 - Jan 2018

Senior Policy Researcher

- Conducted research on the impact of mobile apps on mental health treatment adherence.
- Worked with cross-disciplinary teams to develop innovative mental health solutions.
- Evaluated pilot programs that utilized technology for mental health assessments.
- Contributed to policy guidelines on the ethical use of technology in mental health.
- Organized workshops to educate healthcare providers on digital tools.
- Authored articles in journals on technology and mental health intersections.

ACHIEVEMENTS

- Secured a \$2 million grant for a project focused on telehealth innovation.
- Recognized for contributions to the field with a national award for policy excellence.
- Published influential research that shaped national conversations on digital health policy.
