Analytical Mental Health Policy Researcher with a focus on data-driven policy development. With over 9 years of experience in research and analysis, I have built a career dedicated to improving mental health outcomes through evidence-based policies. My expertise lies in quantitative research methods, and I have successfully led multiple studies that have informed policy changes at various governmental levels.

💼 WORK EXPERIENCE

Senior Data Analyst   2020-2023

National Mental Health Association

- Led data analysis projects that assessed the effectiveness of mental health programs.
- Collaborated with researchers to design studies that informed policy decisions.
- Utilized statistical software to analyze large data sets and generate reports.
- Provided insights that influenced national mental health funding allocations.
- Engaged with stakeholders to present findings and recommendations.
- Authored publications that highlighted key research outcomes.

Policy Analyst   2019-2020

State Mental Health Department

- Conducted quantitative research to evaluate state mental health policies.
- Analyzed trends in mental health service utilization across demographics.
- Collaborated with community organizations to assess policy impacts.
- Prepared reports and presentations for legislative committees.
- Developed data dashboards to track mental health metrics.
- Contributed to grant applications that secured funding for research projects.

★ ACHIEVEMENTS

- Increased data reporting accuracy by 40% through improved methodologies.
- Received recognition for outstanding contributions to state mental health research.
- Published influential studies that shaped policy discussions at the national level.
