- Spanish
- French

Strategic and innovative Mental Health Program Coordinator with more than 9 years of experience in clinical research and program development. My career has focused on bridging the gap between mental health research and real-world application, ensuring that evidence-based practices are effectively integrated into community programs. I possess a strong ability to analyze data and translate it into actionable strategies that improve service delivery and client outcomes.

WORK EXPERIENCE

Mental Health Program Coordinator   2020-2023

Research Institute for Mental Health

- Coordinated research projects focused on mental health interventions, leading to 3 published studies.
- Developed and implemented training programs for practitioners based on research findings.
- Collaborated with local organizations to integrate research insights into community practices.
- Analyzed data to assess program effectiveness and inform future interventions.
- Presented research findings at national conferences, enhancing the institute's visibility.
- Secured funding for research initiatives totaling over $400,000.

Research Assistant   2019-2020

University Health Sciences

- Assisted in conducting clinical trials focusing on mental health treatment efficacy.
- Managed participant recruitment and retention efforts for various studies.
- Contributed to the writing and editing of research papers for publication.
- Conducted data analysis to support research objectives.
- Collaborated with faculty members to ensure compliance with ethical standards.
- Presented findings in departmental meetings, receiving positive feedback from peers.

ACHIEVEMENTS

- Published 3 peer-reviewed articles in leading mental health journals.
- Received the 'Best Research Presentation Award' at a national conference in 2022.
- Successfully secured grants totaling $400,000 for innovative mental health projects.
